IRH 2015 Call for Participation

Dear Sirs,

The Robotics Society of Japan (RSJ), to provide opportunities to join international students, held the International Robotics Forum for High School Students 2013 (IRH 2013) in 2013. I would be grateful, if you could refer a report of the IRH 2013 at our web site (<http://www.rsj.or.jp/education/irh2013/report>).

This year, RSJ is going to hold the International Robotics Forum for High School Students 2015 (IRH 2015) that will collaborate with the International Robot Exhibition 2015 (<http://www.nikkan.co.jp/eve/irex/>).

This event is meant to provide high school students participating from Japan and overseas with the opportunity to research and report firsthand on industrial and service robots, which students would otherwise have little access to. Participants will have the opportunity to engage in mutual exchanges through the presentations on the robot research, and also attend lectures on robotics by robot experts.

We are calling to participate IRH 2015 for oversee high schools that have activity of robotics education, as shown in IRH 2015 official site (<http://www.rsj.or.jp/en/education/irh2015>).

We would be grateful if you could give publicity to IRH 2015 through your network of high school key persons.

I'm looking forward to meeting your country's excellent students at Tokyo.

Yours sincerely,

A handwritten signature in blue ink that reads "Atsuo Takanishi". The signature is written in a cursive style.

Atsuo Takanishi, President

The Robotics Society of Japan
